

## Declaration of contamination of extruder or plant components (clearance certificate)

The existence of a fully completed "Declaration of contamination of extruder or line components" is a prerequisite for the performance of an assessment and / or reprocessing by KraussMaffei Extrusion GmbH.

In the event of contamination due to use, the extruder / system component must be decontaminated by the operator in accordance with the regulations before shipment.

The declaration must be completed by a specialist and countersigned by a person authorized to sign.
