Energy management
Products for injection molding machines

Process
- APC machine functions
- Charge change control
- Energy saving software
- Energy analysis
- Eco Button
- Peak current limiting

Plasticizing
- HPS screws
- Adaption
- EcoPac insulation
- Electric screw drive

Service & Maintenance
- Energy consulting
- Application support
- Training
- Maintenance / inspection
- Bypass oil filtration

Drive
- Servo pump drive
- Vario Drive
- Frequency converter, retrofit
- Hydraulic power unit
- Economizer
