

## Non-return valve

### Three-wing non-return valve, 3F-RSP

The model can be used universally and feature precise closing behavior, even at low screw decompressions and high back pressure.

The wing non-return valve is available for:

- All series
- Screw sizes: SP 55 to SP 24500
- Diameters from 15 to 165 mm

#### Your advantages at a glance:

- Closing behavior with repetition accuracy
- Fast color and material change
- Available ex-stock

Options:

ZE 23.20 Non-stick coating for processing transparent polycarbonate

ZE 23.03 Increased abrasion and corrosion protection for glass fiber contents over 25%

Alternatively:

Multi-ball check valve High-precision closing valve for very low injection speeds

Central-ball check valve Low-wear check valves for diameters 85 mm and larger
